

Alphacool D-RAM module (for Alphacool D-RAM cooler) - black 2 pieces

Alphacool article number: 17268

Quick Info

Due to the new Alphacool D-RAM modules all memory blocks can easily and quickly be equipped with water coolers!

Scope of delivery

2x modul for D-RAM
4x thermal pads
fitting accessories

Technical data

Material	Aluminium
Note for industrial needs	Not compatible with RDIMM modules (Server & Workstation RAM)
Note for consumers	Compatible with standard desktop RAM modules (UDIMM)
Color	black

------------------	--

Packaging dimensions per unit

L x W x H	158 x 48 x 28 mm
Weight	142 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197172684
Customs code	84195080900
Guarantee	2 years

Article text

Due to the new Alphacool D-RAM modules all memory blocks can easily and quickly be equipped with water coolers!

A fight against the underrated heat source "memory" has been announced with the new system of the Alphacool D-RAM coolers. With these modules, the memory blocks are clamped in the modules (with the attached thermal pads) to achieve optimum cooling results. The separately available D-RAM coolers are added and screwed in at the required size after successful assembly. We recommend a very thin layer of thermal paste applied between module and cooler for an optimal heat transfer.

Note:

A thicker thermal pad must be used on one side for single-sided memory blocks which is not included and has to be bought separately.
