

Alphacool Eiszapfen PRO 16mm HardTube fitting G1/4 - deep black sixpack

Alphacool article number: 17477

Quick Info

The new Eiszapfen PRO HardTube fittings from Alphacool are a further development of the well-known Eiszapfen.

- HardTubes stabilise due to their construction
- O-ring and compression seal ensure safety
- Optimal flow rate

Scope of delivery

1x Alphacool Eiszapfen PRO HardTube G1/4" Fitting, 16mm OD, Deep Black, 6-pack

Technical Data

Dimension (D x L)	26mm x 23mm
Material	Brass
Thread	G1/4"
Thread length	5mm
HardTube size	16mm
Compatibility	PETG, acrylic, brass and glass tubes
Weight	4,2g

Download links

Product pictures	17477_Alphacool_Eiszapfen_PRO_16mm_HardTube_fitting_G1-4_-_deep_black_sixpack_pics.zip
EU-DoC / CE / RoHS	Alphacool_EuDoc_CE_RoHS_17477.pdf

Packaging dimensions per unit

L x W x H	95 x 95 x 35 mm
Weight	268 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197174770
Customs code	74198090980

Article text

The new Eiszapfen PRO HardTube fittings from Alphacool are a further development of the well-known Eiszapfen. When developing the fittings, Alphacool focused specifically on a specific problem: the deformation of PETG HardTubes at high temperatures. These can deform at as little as 60°C. Although such a temperature is rarely reached, it can still occur. The Eiszapfen PRO prevent this problem from the outset and hold the tubes in position.

The new nylon inserts inside prevent deformation and stabilize the hard tubes. The fitting also still has an O-ring and a compression seal. However, the contact surface is much larger than with normal O-rings, which ensures a better hold. The insert and the compression seal in the screw connection strengthen the tube from the inside and outside.

The HardTube does not slip even under higher loads. Alphacool has tested the tensile strength of up to 8kg! So you don't need to worry about that.
