

Alphacool Eiszapfen quick release connector kit G1/4 outer thread - Deep Black

Alphacool article number: 17561

Quick Info

The Eiszapfen series represents the high-end line within Alphacool's product portfolio. It is designed for ambitious PC water-cooling enthusiasts as well as professional users, offering top-tier quality, reliable functionality, and a clean, modern design.

- G1/4" male thread fittings
- N.D.S.L (no drip, no splash, no leak) technology
- Durable chrome coating
- Push-in quick-release mechanism

Scope of delivery

- 1x Alphacool Eiszapfen quick-connect fitting G1/4 OT - Deep Black
- 1x Alphacool Eiszapfen quick-release coupling G1/4 OT - Deep Black

Technical data

Dimensions (L x D)	62,5 x 24mm
Weight	95g
Pressure test	0.8 bar ± 10%
Materiel	brass, chrome plating
Thread	2x 1/4" outer thread (OT)
Thread length	5mm
Color	Deep black

Technical data Fitting

Dimensions (L x D)	36,5 x 20,5mm
Weight	32g

Technical data Coupling

Dimensions (L x D)	39,5 x 24mm
Weight	63g

EU-DoC / CE / RoHS	Alphacool_EuDoc_CE_RoHS_17561.pdf

Packaging dimensions per unit

L x W x H	85 x 35 x 35 mm
Weight	103 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197175616
Customs code	74198090980

Article text

The Eiszapfen series represents the high-end line within Alphacool's product portfolio. It is designed for ambitious PC water-cooling enthusiasts as well as professional users, offering top-tier quality, reliable functionality, and a clean, modern design. The quick-release coupling set allows particularly convenient and secure maintenance of the cooling loop without requiring a full drain of the system.

How much water escapes when disconnecting?

Thanks to a sophisticated locking and sealing system combined with N.D.S.L technology (no drip, no splash, no leak), the amount of water escaping when opening the quick-release coupling is extremely small. In practice, only a tiny droplet is released. The coupling is opened by simply pulling the connection ring, allowing the counterpart to automatically disengage. To reconnect, the two parts are simply pushed together until a clear click indicates a secure lock. Operation is intuitive and requires no force.

Alphacool Eiszapfen quick-release couplings are available in various versions, all of which are fully compatible with each other. This allows flexible integration into different water-cooling setups.
