Packaging dimensions per unit

L x W x H	63 x 63 x 30 mm
Weight	28 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197175913
Customs code	74198090990

Article text

Alphacool's Eiszapfen Connector Series is the high-end execution of these tried-and-true connectors! Every requirement you could have of a connector is met with this series: highflow, form, processing and colour. A refusal to compromise in development and production has made the Eiszapfen series into what it is. Components are available in brilliant chrome or a deep, matte black, which will fit excellently into any system.

A special procedure binds the outer coating firmly to the surface, improving the longevity of the intense colour and preventing any chipping or peeling of the coating. Every connector now has the Alphacool logo, which along with their distinctive shape makes them unmistakable!

If you like it colourful, you will find three different coloured O-rings in the scope of delivery. If UV lighting is available, these even glow in the corresponding colour.

Version

This 45° angled adapter is equipped with a G1/4" female thread and a G1/4" male thread. This 45° angled fitting is used in water circuits where there is limited space for tubing and a special solution is required.
