Packaging dimensions per unit

L x W x H	63 x 63 x 30 mm
Weight	38 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197175944
Customs code	74198090990

Article text

The Alphacool Eiszapfen 20mm L-connector G1/4" OT to G1/4" IT is a 90° elbow with one female thread and one male thread that can be easily integrated into any water circuit.

Integration made easy

The L-connector is very compact and can be integrated into any water circuit thanks to its G1/4" female and male threads. It is simply screwed to the corresponding G1/4" connections at any position in the water circuit.

Design

The threads are 5mm deep and high respectively, allowing for the very compact design. Thus, the L-connector can be installed very space-saving in the system.
