## Packaging dimensions per unit

L x W x H	95 x 90 x 35 mm
Weight	180 g

## Other data

Certificates	CE, FC, RoHS
EAN	4250197176163
Customs code	74198090990

## Article text

Alphacool's Eiszapfen connector series is the high-end execution of these tried-and-true fittings!

Everything you want in a compression fitting is here: highflow, form, processing and colour. A refusal to compromise in development and production has made the Eiszapfen series into what it is. Fittings are available in brilliant chrome or a deep, matte black, which will fit excellently into any system.

A special procedure binds the outer coating firmly to the surface, improving the longevity of the intense colour and preventing any chipping or peeling of the coating. Every connector now has the Alphacool logo, which along with their distinctive shape makes them unmistakable!

### **Model: Rotatable L-Connector**

This 90° angle adapter has a rotatable G $\frac{1}{4}$ " external screw thread on one side and a G $\frac{1}{4}$ " internal thread on the other side. This connector is mostly useful in cases where there is little space available and a special solution is needed.
