

## Alphacool Eiszapfen 16mm HardTube compression fitting 90° rotatable G1/4 - White

Alphacool article number: 17621

### Quick Info

Alphacool's Eiszapfen connector series is the high-end execution of these tried-and-true fittings!

- For maximum flexibility, the threaded side can be rotated
- No compromise in form, finish and colouring

### Scope of delivery

1x Eiszapfen 16mm HardTube compression fitting 90° rotatable

## Technical data

Dimensions (L x W)	45.00 x 29.00mm
Material	brass
Threads	G1/4" AG   16mm (OD 5/8")
Thread length	5mm
Possible rotation	360°
Version	90° angled
Color	white

------------------	--

## Packaging dimensions per unit

L x W x H	63 x 63 x 30 mm
Weight	70 g

## Other data

Certificates	CE, FC, RoHS
EAN	4250197176217
Customs code	74198090990

## Article text

Alphacool's Eiszapfen connector series is the high-end execution of these tried-and-true fittings!

Everything you want in a compression fitting is here: highflow, form, processing and colour. A refusal to compromise in development and production has made the Eiszapfen series into what it is.

A special procedure binds the outer coating firmly to the surface, improving the longevity of the intense colour and preventing any chipping or peeling of the coating. Every connector now has the Alphacool logo, which along with their distinctive shape makes them unmistakable!

The union nut's slanted corners allow the O-ring to be pressed firmly against the HardTube, ensuring it sits even more securely than before. This allows for greater safety in transport.

### **Model: 90° compression fitting 16mm**

This fitting has a 1/4" thread on one side and is thereby compatible with 95% of components. The other side fits a 16mm acrylic or brass tube. This fitting is bent 90° in the middle to avoid complicated hose connections. The threaded side is rotatable for maximum flexibility.
