

Alphacool Apex PCI-e 4.0 Riser cable - 20cm

Alphacool article number: 17636

Quick Info

The 20cm long Alphacool Apex PCI-e 4.0 riser cable enables flexible and individual positioning of the PCI-Express x16 slot inside or outside the case.

- Fast data transmission through PCIe 4.0
- Gold-plated contacts ensure stable data transmission
- Securely shielded lanes prevent interference

Scope of delivery

1x Apex PCI-e 4.0 Riser cable - 20cm

Technical data

Cable type	connection cable
Connector 1 (internal)	PCIe (16x) Plug
Connector 2 (internal)	PCIe (16x) Socket
Length PCI riser cable	200 mm
Compatibility PCI riser cable	PCIe 3.0 x16, PCIe 4.0 x16
Connector angled	no
Cable sleeved	no
Cable colour	black
Connector colour	black

Packaging dimensions per unit

L x W x H	263 x 143 x 30 mm
Weight	150 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197176361
Customs code	85043180900

Article text

The 20cm long Alphacool Apex PCI-e 4.0 riser cable enables flexible and individual positioning of the PCI-Express x16 slot inside or outside the case.

Flexible application!

Should the graphics card be changed regularly, the riser cable helps to spare the PCI-Express slot of the mainboard. Therefore the cable is very suitable for testbenches and causes no performance loss within the 4th PCI-e specification. Due to the 20cm cable length, plenty of available space for PCI-e expansion cards is available, which greatly increases the mounting options.

Suitable for modding!

The high quality Apex PCI-e 4.0 riser cable from Alphacool also scores in modding projects. Due to its six cable strands, a high flexibility and durability is guaranteed. Thus, for example, the graphics card can be mounted upright. In addition, the cable is very suitable for SSF cases due to its length.
