

Alphacool EPDM Tube 13/10 - Black 3m (9,84ft) Retailbox

Alphacool article number: 18641

Quick Info

The EPDM tube from Alphacool's Enterprise Solutions series is characterized by its high resistance to acids, bases and external influences and has an exceptional durability compared to conventional PVC tubes. The matt black tube with its subtle velvet look quickly becomes an eye-catcher in every water-cooled PC.

- Extremely resistant to acids and bases
- Possible working temperature up to 120 °C
- Maintains its shape at high temperatures
- Long-lasting

Scope of delivery

1x Alphacool EPDM Flexible Tubing, 10mm ID, 13mm OD (3/8" ID, 1/2" OD), 3 meter, Black

Technical Data

Lenght	3m
Material	Ethylene-propylene-diene rubber (EPDM, without talc)
Hose size	13mm OD / 10mm ID (Tolerances according to DIN ISO 33-02-1 E1)
Hardness	80° (± 5°) Shore A
Working temperature	-35°C to +120°C
Color	Matt Black

Product pictures	18641_Alphacool_EPDM_Tube_13-10_-_Black_3m_(9,84ft)_Retailbox_pics.zip
------------------	--

Packaging dimensions per unit

L x W x H	260 x 220 x 20 mm
Weight	285 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197186414
Customs code	39173200900

Article text

The EPDM tube from Alphacool's Enterprise Solutions series is characterized by its high resistance to acids, bases and external influences and has an exceptional durability compared to conventional PVC tubes. The matt black tube with its subtle velvet look quickly becomes an eye-catcher in every water-cooled PC.

What is the advantage of EPDM?

Compared to standard PVC hoses, the EPDM tube from Alphacool is significantly more temperature-resistant and allows working temperatures well above 100 °C. Even at higher water temperatures, the EPDM tube remains dimensionally stable and prevents the hose from warping in places with tighter bending radii or connections. The risk of the water circuit leaking or the water flow being obstructed is therefore eliminated. The high resistance to external influences makes the Alphacool EPDM hose extremely durable and long-lasting.

Assembly

The Alphacool EPDM Tube is slightly more dimensionally stable than a PVC hose. Nevertheless, it has excellent bendability and flexibility for effortless installation even with tighter bending radii.

Connections

The EPDM hose can be used with all hose connectors (in the appropriate size) from Alphacool's Eiszapfen or HF series.
