Article text

An efficient fan system is particularly important for servers to ensure adequate cooling. The fan and radiator mounting from Alphacool contributes to making maintenance of these components as easy as possible.

Easy Installation and Maintenance
The fans and radiator are fastened to the ES 4U radiator mounting, which simplifies future maintenance of these components. An individual fan or the radiator can be easily replaced or disassembled with a few simple steps. With this easy installation, the ES 4U radiator mounting is an ideal choice for any server operator who values efficient maintenance.
