

Alphacool Eiszapfen Acryl/Acetal Inline filter G1/4 inner thread

Alphacool article number: 29142

Quick Info

The Alphacool Eiszapfen acrylic acetal inline filter protects your water circuit from unwanted particles.

- G1/4" connections with inner threads
- Compact design

Scope of delivery

1x Alphacool Eiszapfen Acryl/Acetal Inline filter G1/4 inner thread

Technical Data

Dimension (D x L)	22mm x 48mm
Material	Acrylic / Acetal
Connection	G1/4" inner thread
Thread depth	6mm
Weight	17g
Color	Transparent / Black

Packaging dimensions per unit

L x W x H	105 x 85 x 22 mm
Weight	19 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197136518
Customs code	84212100900

Article text

The Alphacool Eiszapfen acrylic acetal inline filter protects your water circuit from unwanted particles. The hole thickness of the filter screen is 0.5 mm. This catches all particles that could potentially damage the pump.

The filter consists of four parts: two caps, each with a G1/4" internal thread, the sieve insert and a crystal-clear acrylic cylinder, which is used for visual inspection.

When dirt particles accumulate in the filter screen, it is easy to see that the filter needs to be cleaned thanks to the crystal-clear acrylic cylinder.
