

APEX

APEX STEALTH METAL FAN

With the new Apex Stealth Metal fan, Alphacool presents the most powerful and quietest fan on the market. This is the world's first fan for computers in which the impellers including bearings and motor are completely decoupled from the frame.

POWERFUL AND QUIET

THE LAST FAN IN YOUR LIFE.

Features:

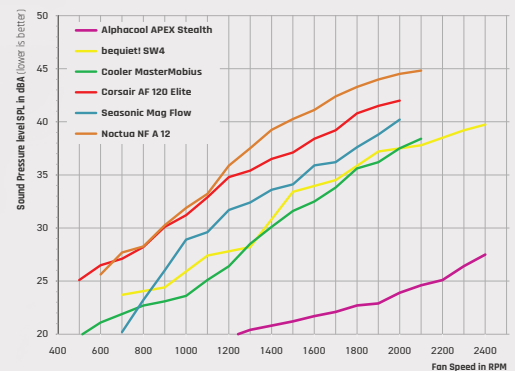

- Complete decoupling of the entire fan from the fan frame
- Full metal fan frame in new Apex design
- 6-pole motor for extremely quiet operation
- HDB (Hydro Dynamic Bearing) silent bearings
- Optimized fan blades for maximum airflow and pressure
- Dimensions: 120x120x25mm

Variants:

- Alphacool Apex Stealth Metal Fan Black
- Alphacool Apex Stealth Metal Fan Chrome
- Alphacool Apex Stealth Metal Fan White

Alphacool ES Stealth Metal Fan Black, a special Enterprise Solutions variant with integrated fan grill, will follow.

Sound Pressure Level in dB(A)

Volumetric Airflow in cfm
